Musicians showcase their talents at

Fête de la Musique

The Alliance Française de held their popular *Fête de la Musique* (International Music Day) on June 22 at their auditorium at Barnes Place, Colombo 7.

Fête de La Musique began in France in 1982 on June 21 and now this music festival is celebrated all over the world. Every year professional and amateur musicians in France take to the streets and parks on this day to celebrate the arrival of summer. Thousands flock there to enjoy the music free of charge and performers embrace all kinds of music.

Here in Sri Lanka, the Alliance brought together musicians to showcase their talents. There was no age limit and no language rules. Individuals, school bands, school music clubs, Interact clubs, dance groups were all invited to perform.
